PLANT AND SOIL

dical
3

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the
"Koninklijk Genootschap voor Landbouwwetenschap"
(Royal Netherlands Society of Agricultural Science)

Managing Editor: G. H. Arnold, Institute for Soil Fertility, Haren (Gr.), Netherlands.

Assistant Editors: J. K. Smit, Epe, and A. Houwers, Wageningen.

Druk: Koninklijke Drukkerij Van de Garde B.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

VOLUME 52

THE HAGUE
MARTINUS NIJHOFF
1979

PRINTED IN THE NETHERLANDS

CONTENTS—TABLE DES MATIERES—INHALT

PAGE

A. K. Alva and Leif Petersen, Soil physical properties in relation to rice yield and water consumption under flooded and unflooded conditions 353

N. Amarger, A. Mariotti, F. Mariotti, J. C. Durr, C. Bourguignon and B. Lagacherie, Estimate of symbiotically fixed nitrogen in field grown soybeans using variations in ^{15}N Natural abundance 269

M. J. Armstrong and E. A. Kirkby, The influence of humidity on the mineral composition of tomato plants with special reference to calcium distribution 427

Lynn E. Barber, Sterling A. Russell and Harold J. Evans, Inoculation of millet with azospirillum 49

D. Barèl and C. A. Black, Effect of neutralization and addition of urea, sucrose, and various glycols on phosphorus absorption and leaf damage from foliar-applied phosphate 515

B. M. Bopaiah and P. V. Rai, *Short communication.* Effect of four common herbicides on the population of microorganisms in Red Sandy soil 451

J. H. Bouton and D. A. Zuberer, *Short communication.* Response of *Panicum maximum* Jacq. to inoculation with *Azospirillum brasilense* 585

M. S. Chaudhry, S. M. Sherif, F. M. Chaudhry and A. H. Abed, Micronutrient availability to cereals from calcareous soils: VII. Mechanism of higher wheat production by tillage methods . . 537

A. S. Chavan and N. K. Banerjee, *Short communication.* Response of rice to iron-zinc interrelationships in a lateritic soil (oxisol) . 311

M. C. Cowan, Water use and phosphorus and potassium status of wheat seedlings colonized by *Gaeumannomyces Graminis* or *Phialophora Radicicola* 1

J. D. Deans, Fluctuations of the soil environment and fine root growth in a young Sitka spruce plantation 195

B. K. Dutta and I. Isaac, Effects of inorganic amendments (N, P and K) to soil on the rhizosphere microflora of antirrhinum plants infected with *Verticillium dahliae* Kleb. 561

Julian Evans, The effects of leaf position and leaf age in foliar analysis of *Gmelina arborea* 547

O. K. Garg, A. N. Sharma and G. R. S. S. Kona, *Short communication*. Effect of boron on the pollen vitality and yield of rice plants (*Oryza sativa* L. var. Jaya) 591

P. M. Giordano, Soil temperature and nitrogen effects on response of flooded and nonflooded rice to zinc 365

F. H. Goubran and D. Richards, The estimation of root length in samples and subsamples. Comparison of a visual and an automatic method 77

K. L. Gulati, S. C. Goswami and K. K. Nagpaul, Mineral element composition of natural vegetation and its relation to soil of Pugavalley, Ladakh, India 345

J. S. Hewitt and A. R. Dexter, An improved model of root growth in structured soil 325

H. S. Holfeld, C. S. Mallard and T. A. Larue, *Short communication*. Portable gas chromotograph 595

Vibeke Holter, *Short communication*. Distribution of *Urtica dioica* L. in relation to edaphic factors 599

P. B. Hoyt and G. G. S. Myovella, Correction of severe manganese deficiency in wheat with chemical fertilizers 437

M. Ibrahim, A. Berger et M. Rapp, Détermination de la transpiration au moyen de l'eau tritiée. Méthodologie et validité des résultats. Application a *Pinus pinea* L. 291

M. E. Ibrahim, M. A. Daif, E. El-Baisari and Sh. Sh. Holah, Soil amendments to correct iron availability in Egyptian soils . . . 185

TETSUO KANAMORI and TAMAKI YASUDA, Immobilization, mineralization and the availability of the fertilizer nitrogen during the decomposition of the organic matters applied to the soil . . . 219

B. D. KAUSHIK and G. S. VENKATARAMAN, *Short communication.* Effect of algal inoculation on the yield and vitamin C content of two varieties of tomato 135

M. B. KIRKHAM and E. L. SMITH, Water potential gradients of tall and short cultivars of winter wheat 553

I. LEVIN, R. ASSAF and B. BRAVDO, Soil moisture and root distribution in an apple orchard irrigated by tricklers 31

D. J. LINEHAN and H. SHEPHERD, A comparative study of the effects of natural and synthetic ligands on iron uptake by plants . . . 281

N. MALAKONDAIAH and G. RAJESWARARAO, Effect of foliar application of phosphorus on growth and mineral composition in peanut plants (*Arachis Hypogae* L.) under salt-stress 41

M. S. MANDOUR, E. N. ABOU-ZIED and M. HASSIB, Effect of irrigation treatments upon the chemical constituents of *Hibiscus sabdariffa* L. 485

JENS MØLLER NIELSEN, Evaluation and control of the nutritional status of cereals. IV: Quantity of final yield controlled by nutrient therapy 229

JENS MØLLER NIELSEN, Evaluation and control of the nutritional status of cereals. V: Quality of final yield controlled by nutrient therapy 245

V. MURUGAPPAN and B. MISHRA, *Short communication.* N-lignin and margosa (neem) seed cake-blended urea as nitrogen source for wheat 131

S. K. NAIR and P. TAURO, *Short communication.* Effect of inoculation with *Pseudomonas azotogensis* on the yield and straw weight of wheat 453

GEORGE NAKOS, Lime-induced chlorosis in *Pinus radiata* 527

A. S. NEGI, Phosphorus uptake from different sources of phosphatic fertilizers by maize and wheat at two stages of growth 475

M. NYBORG and S. S. MALHI, *Short communication.* Increasing the efficiency of fall-applied urea fertilizer by placing in big pellets or in nests 461

V. S. AYO ODUNFA, Free amino acids in the seed and root exudates in relation to the nitrogen requirements of rhizosphere soil Fusaria 491

P. A. I. OREMUS, A quantitative study of nodulation in *Hippophaë Rhamnoides* L. ssp. *Rhamnoides* in a coastal dune area 59

A. OXBROW and J. MOFFAT, *Short communication.* Plant frequency and distribution on high-lead soil near Leadhills, Lanarkshire . 127

S. U. PATWARY and Z. RAIKOVICH. Tracer studies on the balance and chemical distribution of applied nitrogen under different moisture regimes using lysimeter 209

K. M. PERROUX, Controlled water potential in subirrigated pots . 385

D. RICHARDS, F. H. GOUBRAN, W. N. GARWOLI and M. W. DALY, A machine for determining root length 69

G. A. RODGERS, B. BERGMAN, E. HENRIKSSON and M. UDRIS, Utilisation of blue-green algae as biofertilisers 99

W. ROELOFSEN and A. D. L. AKKERMANS, Uptake and evolution of H_2 and reduction of C_2H_2 by root nodules and nodule homogenates of *Alnus glutinosa* 571

M. SAEED, *Short communication.* Recovery of adsorbed zinc in acid soil as influenced by prior phosphorus applications 447

K. C. SAHA and L. N. MANDAL, Effect of algal growth on the availability of phosphorus, iron and manganese in rice soils . . 139

S. U. SARATHCHANDRA, *Short communication.* A simplified method for estimating ammonium oxidising bacteria 305

M. S. SAROHA and H. G. SINGH, Effect of prevention of iron chlorosis on the quality of sugarcane grown on vertisols . . . 467

M. SCHENK and J. WEHRMANN, The influence of ammonia in nutrient solution on growth and metabolism of cucumber plants . 403

M. SCHENK and J. WEHRMANN, Potassium and phosphate uptake of cucumber plants at different ammonia supply 415

ASHOK K. SHUKLA, B. D. BAIJAL and G. K. CHATURVEDI, *Short communication*. Specific ion effect as a probable cause of growth inhibition under saline conditions 457

M. SILBERBUSH, B. GORNAT and D. GOLDBERG, Effect of irrigation from a point source (trickling) on oxygen flux and on root extension in the soil 507

B. K. SINGH and S. C. MODGAL, Pattern of dry-matter accumulation, and nitrogen concentration and uptake as influenced by levels and methods of nitrogen application in rainfed-upland rice 9

S. P. SINGH, M. K. SINHA and N. S. RANDHAWA, Effect of zinc-amended poultry manure and zinc sulphate on the growth and uptake of zinc by corn (*Zea mays* L.) 501

N. C. SINHA, O. N. MEHROTRA and R. K. MATHUR, *Short communication*. Studies of soil moisture stress in barley (*Hordeum vulgare* L.) 581

RICHARD C. STRICKLAND, WILLIAM R. CHANEY and ROBERT J. LAMOREAUX, Organic matter influences phytotoxicity of cadmium to soybeans 393

S. D. UPADHYAYA, J. C. DAGAR and V. P. SINGH, A mathematical approach towards nitrogen cycling in arable land in *Cajanus cajan* field 315
